CRAFTING INITE INITE VISION

ABOUT US

Rushil Decor Ltd., is one of the leading companies in Laminate and MDF panel boards industry in India with a global footprint across 56+ countries. Founded in 1993, we have been able to find a strong and loyal customer base because of our commitment to excellence and passion to bring to life designs that are elegant, timeless and class-apart.

A global leader in smarter living solutions, Rushil Decor Ltd., leverages modern technology, next-generation innovation and a people-first, purposeful approach. Rushil Decor is passionate about setting new industry standards and superior experiences, ensuring high productivity. The company has 6 state-of-the-art manufacturing plants with an annual capacity of 3,30,000 CBM MDF and 3.49 million Laminates.

OUR VISION:

Nurturing healthier lives for people globally, we responsibly manage innovative functional solutions and sustainable growth, driven by next-generation technologies to transform the local communities, nations and the planet.

OUR CORE VALUES

- Innovation
- Customer Focus
- Quality & Service
- Trust
- •Transparency

OUR PRODUCT PORTFOLIO

- Decorative Laminates
- Jumbo Laminates
- Compact and Exterior Laminates
- MDF Boards
- HDFWR Boards
- Prelaminated Decorative MDF Boards
- PVC and WPC Boards
- PVC and WPC Doors

- WPC Frames
- WPC Printed Doors
- Plywood
- HDF Laminate Flooring
- SPC Flooring
- Engineered Wood Flooring
- MDF Acoustic Wall Panel
- Cubicles

OUR ADVANTAGE

Our advanced state-of-the-art manufacturing facilities offer products across categories, with every product promising the Rushil hallmark of impeccable quality. Our green-label certification from Singapore Environmental Council, BIS & Eco-mark certifications reinforce our commitment to doing business responsibly. Ensuring manufacturing compliance with Health, Safety and Environment (HSE) regulations, we remain committed to protect our people, the community and the environment.

VIR HIGH PRESSURE LAMINATES

The most durable decorative surface material, VIR Laminates have special performance properties such as chemical, fire and wear resistance. VIR Laminates are crafted to last, they are made from absorbent kraft paper that can withstand wear and tear over a period of time.

- 1200 Plus Designs and 100 Plus Textures
- Impact, Scratch and Abrasion-resistant
- Low Heat Conduction
- Moisture Resistant
- Low Maintenance
- Carpenter Friendly

LAMINATE

1.25 mm | 1 mm | 0.8 mm | Exterior Grade | Digital | Unicolor | Post Forming | Door | Lab Grade Chalk Grade | Marker Grade | Liner | Compact | Jumbo Laminate

APPLICATIONS

Residential and Commercial Furniture | Tabletops | Cladding | Office Partitions | Wall Panelling Storage Units | Cubicles | Check-out Desks | Vanity Units | Cabinet Doors | Reception Areas

AVAILABLE SIZE

8 ft x 4 ft (2440 mm x 1220 mm) | 9 ft x 4.25 ft (2800 mm x 1300 mm) 10 ft x 4.25 ft (3050 mm x 1300 mm)

Jumbo Laminate:

12ft x 6ft (1860 mm x 3660 mm) | 14ft x 6ft (1860 mm x 4350 mm)

CERTIFICATIONS

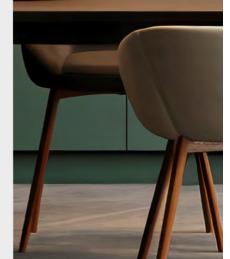

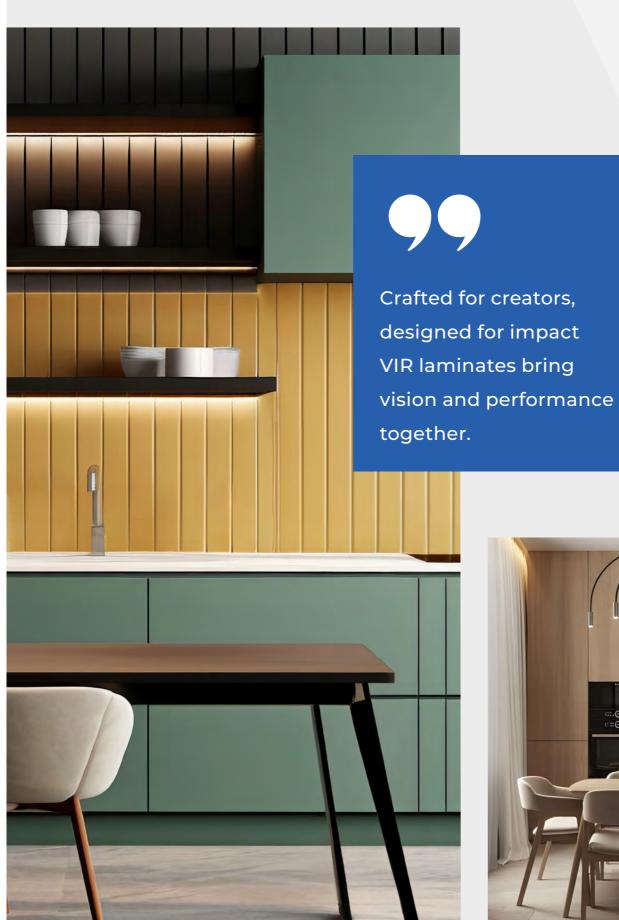

VIR VTL AND VTL+ (ANTI FINGER PRINT LAMINATE)

Transform your Interiors with VIR VTL and VTL+ laminates that give an elegant look to the interiors and leave them spotlessly clean. The timeless designs, with almost zero-reflection matt finish, VIR VTL and VTL+ will leave a mark on your mind and heart but allow no mark on the furniture. Apart from being fingerprint resistant, it is scratch proof too.

- Anti Finger Print Technology
- Smooth and Silky Finish
- Minimal Light Reflection
- Water Repellent
- No Smears And Smudges

VIR UNICOLOR

VIR Unicolor is a single-coloured laminate made with layered decorative papers of the same colour throughout the thickness of the laminate so as to avoid dark colour seams which appear on the edges / joints.

- Even and Consistent Look
- Specialised Product
- Highly Durable
- No Dark Edges

VIR FLEXLAM (POST FORMING LAMINATE)

VIR FlexLam are specially crafted laminates that have bendability in addition to having all of the qualities of standard grade high pressure laminates. They can be bent into simple cylindrical concave or convex curves. The laminate that is slightly thinner and more flexible than standard laminate.

- Enhanced Flexibility and Malleability
- Prevents Water Seepage

VIR SYNC (SYNCHRONIZED LAMINATE)

VIR Sync laminates are meticulously crafted, ensuring that the design paper's grains and textures align perfectly to create a unique product. With embossing that closely mimics the colors and patterns of natural wood, our Sync laminates offer a strikingly authentic appearance. These laminates are also durable, resistant to fading, easy to maintain and feature low emissions.

These high-quality laminates are designed for interior applications, offering superior finishes, exceptional flexibility and innovative designs that consistently meet the needs of the furniture industry, both domestically and internationally.

VIR VAULT (COMPACT HIGH PRESSURE LAMINATE)

VIR VAULT is a premium range of Compact High Pressure Laminate (HPL) panels, specially engineered for high-performance applications such as lockers, toilet cubicles, partitions, wall claddings. Designed to endure tough environments, VIR VAULT is compact, self-supporting, resistant to moisture, impact, scratches, daily wear and tear.

Crafted using multiple layers of kraft paper impregnated with phenolic resins and a decorative layer protected with melamine resins, the panels are compressed under high temperature and pressure to create a highly durable, non-porous material. VIR VAULT is also antibacterial, antifungal and easy to clean, making it ideal for hygiene-sensitive areas like schools, gyms, hospitals and public spaces.

Available in a wide range of designs, textures, thicknesses and sizes VIR VAULT is backed by Rushil Decor's legacy of innovation and quality. It meets international standards for fire resistance and performance, making it a reliable choice for demanding commercial and institutional projects.

• Impact Resistant

• Water Resistant

• Abrasion Resistant

• Graffiti Resistant

• Scratch Resistant

• Excellent Machinability

• Fire Resistant

Highly Durable

• Bacterial Resistant

• Fast Installation

• Termite Resistant

• Space Saving

VIR KLADS (EXTERIOR-GRADE LAMINATE)

VIR Klads are specially designed and manufactured laminates for external wall cladding to provide greater strength while also providing creative colour and design options. Designed to withstand constant exposure to ultraviolet rays and atmospheric pressure, VIR Klads stay colourful and vibrant for years.

At Rushil Decor, we believe every outdoor space can be aesthetically appealing and also be transformed to suit our customers' need for creating luxurious, vibrant and functional outdoor spaces. VIR Klads range is made to endure the rigors of the harsh outdoors, giving you years of luxury, comfort and most importantly durability.

- Meets European Standards
- Easy to Install and Maintain
- High Durability
- Moisture Resistant
- All-weather Proof
- Impact Resistant
- Opulent Designs

APPLICATIONS

Wall Cladding | Partition Walls | Railings | Front Gates and Doors | Park Benches | Residential & Commercial | Ceiling | Roofing | Outdoor Furniture Claddings | Facades | Partitions Lockers | Balconies

AVAILABLE THICKNESS

 $6\,\mathrm{mm}$ (Customized thickness on demand only up to 15 mm)

AVAILABLE SIZE

8 ft x 4 ft (2440 mm x 1220 mm) | 10 ft x 4 ft (3050 mm x 1220 mm)

VIR PRO (INTERIOR GRADE) MDF

VIR PRO MDF, the new-age wood is a great alternative to solid wood, particle board and plywood as it is extremely cost-effective. Unmatched international standard quality, performance, durability and aesthetics make VIR MDF thepreferred material of choice of OEM'S, SCP'S and conventional wood furniture manufacturers across the world. A revolutionary product that meets the evolving demands of modern-day consumers.

- Easy Machinability
- Chipping-free Edges
- Easy to Carve or Mould
- Uniform and High Density
- Ultra-smooth
- Resistant to Adverse Environment and Pests
- Paint, Veneer and Laminate Friendly

AVAILABLE THICKNESS

2.00 mm | 3.30 mm | 4.00 mm | 4.60 mm | 5.50 mm | 7.00 mm | 7.30 mm | 9.75 mm | 11.00 mm | 14.50 mm | 16.00 mm | 16.50 mm | 17.00 mm | 18.00 mm | 25.00 mm

VIR PROPLUS (EXTERIOR GRADE) MDF

VIR PROPLUS MDF is high on strength and durability, making it ideal for prefinished portioning applications. VIR PROPLUS MDF is resistant to external forces and its moisture-resistant panel has been treated to prevent fungus and termite infestations. It is environmentally benign and contains low amounts of formaldehyde, ensuring your family's safety.

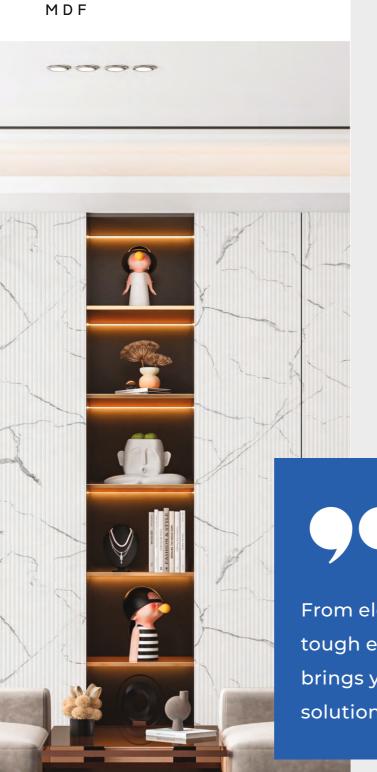

- Steady and Uniform Structure
- High Density
- No Knots
- Inability to Splinter
- Flawless Surface
- High Bonding Strength

APPLICATIONS

Residential & Commercial Furniture | Office Equipment | Modular Kitchen Architectural Mouldings | Industrial Products | Sport Goods | CNC Routing Display Cabinets | Doors and Partitions | Cornice Pelmets | Retail Fixtures Shelves | Vanity Cabinets | Wall Panelling

AVAILABLE THICKNESS

 $3.30 \, \text{mm} \, | \, 5.50 \, \text{mm} \, | \, 7.30 \, \text{mm} \, | \, 11.00 \, \text{mm} \, | \, 17.00 \, \text{mm} \, | \, 18.00 \, \text{mm} \, | \, 25.00 \, \text{mm}$

AVAILABLE SIZE

6ftx4ft(1830 mmx1220 mm) | 8ftx4ft(2440 mmx1220 mm) | 8ftx6ft (2440 mm x 1830 mm)

*All international sizes and thickness (2.00 mm to 30.00 mm) now available.

CERTIFICATIONS

From elegant interiors to tough exteriors, VIR MDF brings you versatile solutions that last.

VIR MAXPRO (HDFWR)

VIR MAXPRO (HDFWR – High Density Fiber Water Resistant) Boards, another of Rushil's exciting product innovation, is an ideal substitute for plywood. Made from high density fiber, these heavy—duty boards are ultra–strong, moisture–resistant, anti–fungal and borer–resistant while being eco–friendly with great machinability. State–of–the–art manufacturing facilities that produce high quality HDFWR Boards. High water–resistant property makes it ideal for kitchens and bathrooms. Also a great option for wardrobes, furniture, partitions, wall panelling and more.

- High Water Resistant
- Double Hardened
- High Density
- Termite, Borer and Fungus Resistant
- High Load Bearing Capacity
- Dimensionally Stable
- Uniform and Super Smooth Surface
- Stable and Durable
- Excellent Surface Routing and Edge Shaping
- Minimum Sanding and Filing
- Ideal for Intricate Design Carving
- Elegant Finish

APPLICATIONS

Residential & Commercial Furniture | Wall Panelling | Modular Kitchen Mouldings | Architectural Mouldings | Wet Area Applications | Kitchen Cabinets and Shutters | Construction | Industrial Products | Sports Goods Speaker Boxes | Display Cabinets | CNC Routing | Office Equipment Flooring | Ceilings | Doors & Partitions | Cornice | Pelmets and more

AVAILABLE THICKNESS

3.00 mm | 5.50 mm | 7.50 mm | 11.00 mm | 16.00 mm | 16.75 mm | 18.00 mm | 25.00 mm

AVAILABLE SIZE

6 ft x 4 ft (1830 mm x 1220 mm) | 8 ft x 4 ft (2440 mm x 1220 mm) | 8 ft x 6 ft (2440 mm x 1830 mm)

*All international sizes and thickness (2.00 mm to 30.00 mm) now available.

VIR PRO (INTERIOR GRADE) MDF

VIR Prelaminated MDF Boards seamlessly combine the strength and versatility of MDF with the elegant finish and look of laminates. Manufactured by bonding decorative melamine-impregnated papers onto MDF under precisely controlled heat and pressure, these boards offer a smooth, ready-to-use surface that eliminates the need for additional painting or finishing.

Available in an extensive range of designs, VIR Prelam MDF features high-quality décor papers imported from Europe, Japan and other global sources—ensuring consistent quality and superior glue absorption for lasting durability. With their uniform texture, visual appeal, and cost-effectiveness, these boards are ideal for furniture manufacturing, interior décor and modular construction applications.

- Consistent Thickness and Density
- Prefinished Surface
- High Moisture Resistant
- Environment Friendly
- Strong and Tough
- Dimensionally Stable

- Termite, Borer and Fungus Resistant
- Excellent Machinability
- Cost-Effective
- Time Saving
- Ready to Use
- Easy to Maintain

AVAILABLE IN 3 GRADES

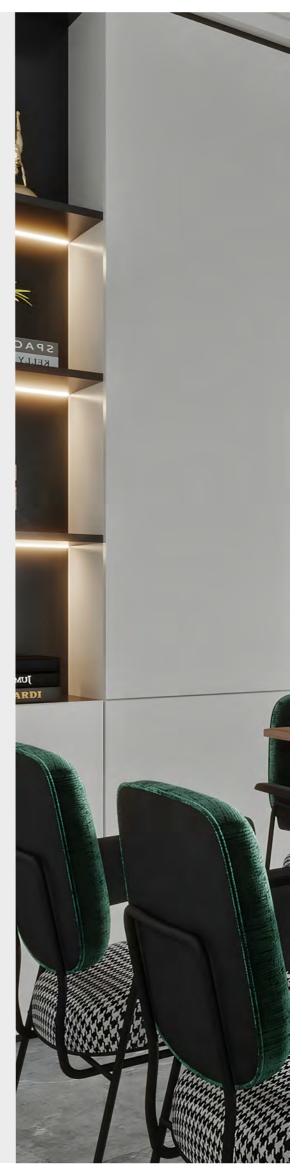

- VIR PRO (Interior Grade)
- VIR PROPLUS (Exterior Grade)
- VIR MAXPRO (HDFWR Grade)

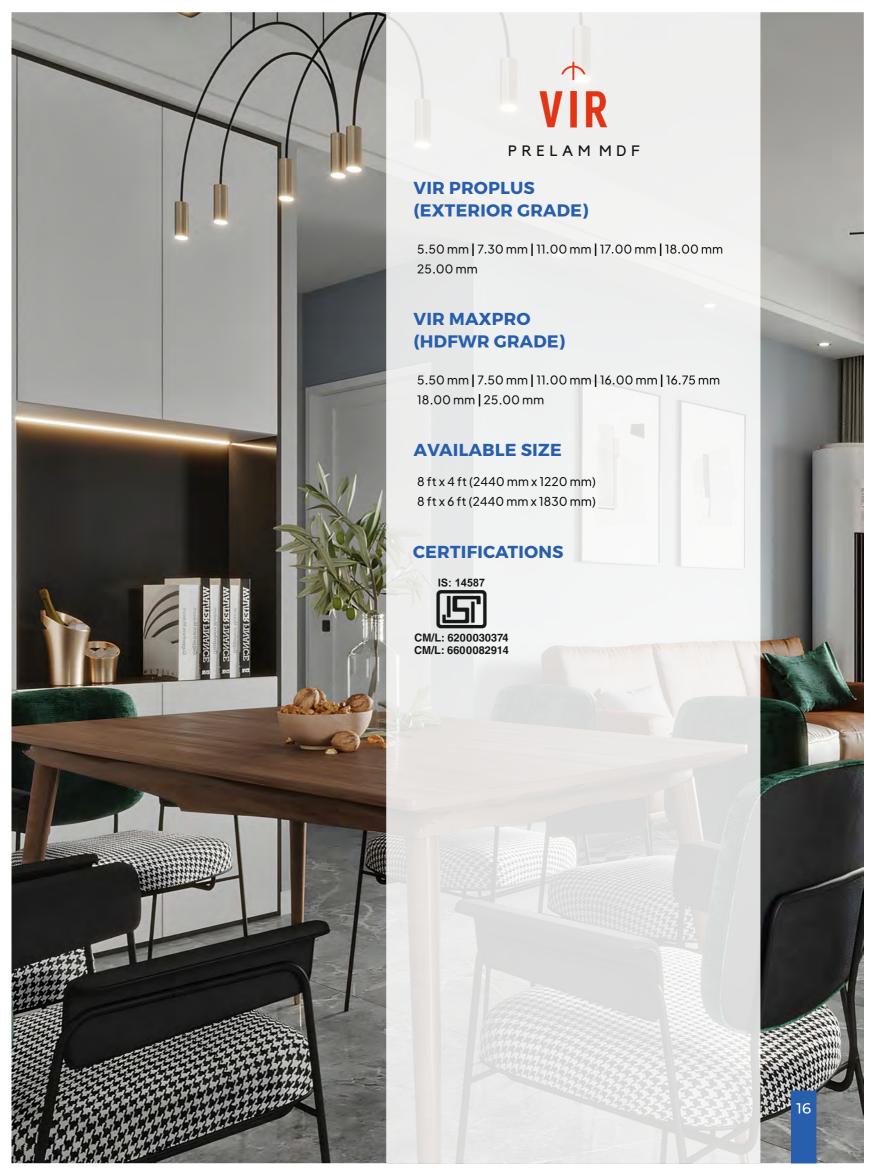

APPLICATIONS

Modular Kitchen | Partitioning | Panelling | False Ceiling | Cupboard Shutters Furniture | Panel Door Inserts | Wall Panels | Exhibitions & Product Display Modular Furniture | Speaker Boxes | Pre-laminated Stationary Articles

AVAILABLE THICKNESS VIR PRO (INTERIOR GRADE)

4.60 mm | 5.50 mm | 7.30 mm | 9.75 mm | 11.00 mm | 14.50 mm | 16.00 mm | 16.50 mm | 17.00 mm | 18.00 mm | 25.00 mm

VIR PVC AND VIR WPC BOARDS

Termed as the panel board of the future, PVC (Poly Vinyl Chloride) and WPC (Wood-Plastic Composite) boards are the perfect solution to the atmosphere that is prone to extreme challenges. Trendy, functional and easy to use, PVC and WPC boards are extremely versatile. Our boards have been made with a vision of creating healthy indoor & outdoor environments where utility is matched with sustainability.

These are value-added materials that offer exceptional performance, easy applicability and profitability to designers, architects, builders, dealers, contractors and homeowners. The need for green building materials is more pressing than ever before, which is why, VIR brings you high quality PVC & WPC foam boards that are environmentally responsible and resource efficient.

Performance, design, features and environmental protection all meets the highest standards and blend seamlessly with Rushil Decor's knowledge to everyone's gain.

- Waterproof
- Termite and Borer Proof
- Homogenous Sheet
- High Tensile Strength
- Impact Resistant
- Excellent Machinability
- Fire Retardant
- Easy to Paint, Glue and Carve
- Environment-friendly
- Weather and Ageing Resistant
- Good Screw and Nail Holding Capacity

VIR PVC DOORS

VIR PVC & VIR WPC doors are the doors of the future. The plastic and resin components of these doors enable you to have doors that are corrosion proof as well as termite & borer resistant and fungus resistant, this makes them durable enough to last a lifetime with little or no maintenance. VIR PVC doors are here to elevate your firstmile experience both in terms of the aesthetics and the functionality. VIR PVC doors are made with cutting-edge technology and built with high-grade plastic & resin components ensuring 100% resistance to water, termite and fungus. They are a cost-effective alternative to wooden doors.

VIR WPC FRAMES

VIR WPC (Wood Polymer Composite) frames, are door frames crafted from a blend of wood fibres and thermoplastic materials. These frames are produced by combining essential components to achieve a thick consistency, which is then moulded or extruded into the desired shape. WPC frames are widely used in the construction industry due to their numerous benefits over conventional wooden or marble door frames. VIR WPC are solid and durable.

- Water and Moisture Resistant
- Best for Use In Wet Atmosphere

SURYA CLICK HDF LAMINATE FLOORING

A smart flooring solution that's faster, better, easy to install, Surya Click HDF Laminate flooring can be installed fast. With interlock technology, this flooring allows glue-free installation. We offer an extensive range of finishes & designs that are elegant and timeless.

With exclusive patterns and an assortment of shades, these floor panels are suitable for bedrooms, exquisite villas, exciting workplaces and more. Surya Click's technology, with its innovative 'one-click' method is time-saving and cost-efficient. The strength of the locking system not only makes the flooring more durable but also ensures quick installation and an impeccable finish.

- Termite, Borer and Fungus Resistant
- Environment Friendly
- Easy to Install
- Easy to Clean and Maintain
- Cigarette Burn Resistant
- Glue Free Installation
- Stain and Impact Resistant

APPLICATIONS

Villas | Living Room | Kitchen | Corporate Office | Malls | School & College | Library | Hospitals & Healthcare | Lifestyle & Beauty

PRODUCT RANGE

REGULAR

Surya Click Regular HDF Laminate Flooring is available in 8 mm thickness with plank size 181 mm x 1190 mm in AC3 & AC4 grade. This laminate flooring is extremely resilient with fast installation and beautiful designs.

PREMIUM

Surya Click Premium HDF Laminate Flooring is available in 12 mm thickness with plank size 181 mm x 1190 mm in AC4 grade only thicker plank feels more like a hardwood floor underfoot and is impact resistant.

CANVAS

Surya Click Canvas series HDF Laminate Flooring is available in 8 mm & 12 mm thickness with plank size 220 mm x 1190 mm in AC4 grade only. This flooring is bigger with wide plank size which has fewer seams, easy to install and makes small area larger in appearance.

HERRINGBONE

Surya Click Herringbone series is available in $12 \, \text{mm}$ thickness with plank size $100 \, \text{mm} \, x \, 600 \, \text{mm}$ in AC4 grade only. This series is named after its resemblance to the bone structure of the Herring fish, it is a unique design featuring a V-shaped weave. It has a classic aesthetic appeal, flexibility, durability, cost-effectiveness and easy maintenance.

ENGINEERED WOOD FLOORING

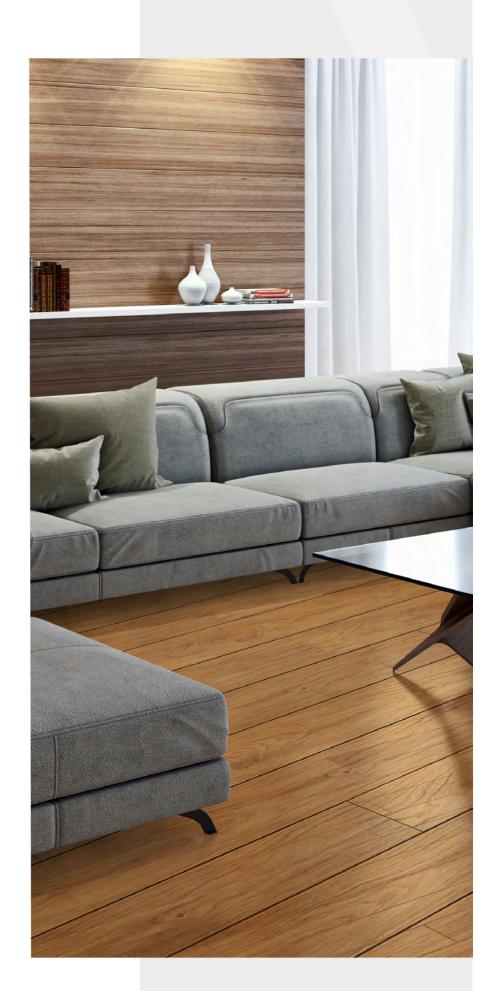

Surya Engineered Wood Flooring blends the timeless appeal of solid hardwood with the practical benefits of engineered wood. Made from real timber, engineered wood planks are carefully crafted with multiple core layers pressed together.

The layers are strategically arranged in different directions, providing enhanced stability compared to traditional solid wood flooring.

The top layer of the engineered wood is made from genuine hardwood species such as Oak, American Walnut, Sapele and Taun, while the core is constructed from Eucalyptus and the bottom layer is Poplar wood. This composition allows the flooring to adapt to changes in temperature and moisture, ensuring dimensional stability.

The top layer of the engineered wood is finished with either light or dark lacquer coatings. The finishing process involves seven steps: a base coat, light putty or colour staining, three hardened primer lacquers, an abrasion-resistant primer lacquer and two scratch-resistant top coatings. Aluminium oxide, a natural mineral, forms a durable protective layer that shields the flooring from scratches, fading, water damage, scuffs and general wear, all without altering the wood's natural colour or grain.

The Uniclic technology, a breakthrough innovation, locks planks together without the need for glue, ensuring that the joints remain secure over time. This system makes installation easier and ensures a smooth, seamless look that can withstand seasonal changes.

- Scratch and Stain Resistant
- Low Environment Impact
- Increased Property Value
- Aesthetic Appeal
- Easy to Clean
- Variety of Designs
- Low Maintenance
- Highly Durable
- Good for High-traffic Areas

SURYA SPC FLOORING

Surya SPC Flooring (Stone Plastic Composite Flooring) represents the next generation of waterproof flooring solutions. Our products feature an easy-to-install locking system and consist of five layers, including a special wear layer that safeguards against scratches, spills and sun damage. The core layer is made from a durable blend of natural limestone powder, polyvinyl chloride and stabilizers, giving SPC flooring its remarkable strength, water resistance and longevity.

Whether for your home, office, retail space or hotel, Surya SPC Flooring adds a touch of sophistication and comfort to any environment.

This flooring is not only simple to install and maintain, but it also offers a quiet, soothing ambiance that will resonate with your senses. It's an affordable yet durable choice for creating and sustaining comfortable, refreshing living spaces. With a wide range of design options available, you can create unique, stylish and inviting floor combinations to suit your aesthetic. Thanks to its waterproof rigid core technology, along with antibacterial and acoustic properties.

ACOUSTIC WALL PANEL

Surya Click Acoustic wall panels are made from MDF Slats with veneers & PET Polyester fibre with sound-absorbing properties. These panels are soundproofing material designed to reduce or absorb sound within a room or space. They can be mounted on walls to minimize noise reflection, reduce echo and improve the overall acoustics of a room.

Our panels are designed for both functionality and aesthetic appeal, as they come in a variety of shapes, sizes and colors to blend into the decor of a room. They work by trapping sound waves, which helps to reduce reverberation and can make the space quieter and more comfortable to use.

Minimalist rooms in a modern style are an arrangement where wooden acoustic panels definitely work best and will perfectly complement the composition of the room in which they are installed. Surya Click Acoustic Wall Panels provide unlimited possibilities for DIYer.

Surya Click Acoustic Panels are ideal not only as a decoration for a wall or ceiling, but also as a great finish for furniture or even a free-standing wall.

They are perfect for helping to reduce echoes and eliminate background noise in any space. With our range of ready-made acoustic wood panelling, you can make any wall a work of art. Our brand new Acoustic Wall Panels will create 3D texture on interior walls, to make a statement and make your walls stand out. We offer a wide range of high-quality acoustic wall panels that make your home or office peaceful and visually charming.
